## Team Julia '23 – Raising Funds to Cure CMT

Julia, and thousands of young adults and children with CMT, share a dream. They want to run, jump, and dance like the other kids do, but for many of them even the simplest activities of daily life can be challenging.

We admire Julia's courage and determination in meeting the challenges she faces because of her CMT, and we greatly appreciate her family's effort to help fund CMT research. Since it's outset, TeamJulia has raised well in excess of \$1 million for CMT research.

Through our Strategy to Accelerate Research (CMTA-STAR), our initiative which is striving to find effective treatments for CMT, we are also doing everything we can at the CMTA to ensure a brighter future for Julia and everyone who is affected by CMT.

On Saturday November 25, family members and friends of TeamJulia '23 will participate in a local walk/swim to raise funds for the CMTA-STAR program.

With your generous support of their effort, you will enable the CMTA to continue funding research by the best scientists in the world and bring us that much closer to our goal of a world without CMT. Thank you.
